

BlueFX & ViewFX SUITS STICK, MIG, TIG & PLASMA CUTTING

AUSTRALIAN STANDARDS

AS/NZS 1338.1 (Auto-Darkening) and AS/NZS 1337.1B (High Impact).

ARC SENSORS

Provides continuous arc sensing capability. Lens automatically switches from light state 4 to adjustable welding shades 9-13 when an arc is struck. The BlueFX Lens darkening reaction time is 1/12,000 seconds and the ViewFX is 1/15,000 seconds.

GRIND MODE

Comes with Grind Mode, so you can use one helmet for all your welding requirements.

VARIABLE SHADE CONTROL

Adjusts shade, lens sensitivity and delay for maximum control when welding. Shade 9-13.

SENSITIVITY CONTROL

Makes the lens more responsive to different light levels in various welding processes.

OPERATOR COMFORT

High quality headgear comfortable, lightweight and fully adjustable for easy adjustment to provide maximum face and neck protection.

BATTERY POWEREDWITH SOLAR ASSIST

The replaceable battery life is extended by inbuilt UV solar cells which absorbs power from the arc while welding. Delivers up to 1500 hours of interruption free welding.

LENS DELAY CONTROL

Used to adjust the time for the lens to switch to clear state after welding. Useful in eliminating bright rays present in high amp applications.

MAGNIFYING LENS HOLDER

Built-in provision for magnifying lens*, if required. *Magnifying lens not included.

RELIABILITY & PERFORMANCE

WIA helmets have been tested and passed stringent conditions, so you can be guaranteed reliability and performance. Manufactured with quality in mind WIA's BlueFX comes with 1 year warranty while the ViewFX comes with 2 years warranty.
