SAF NERTAZIP
MODELS 215, 525, 540
SPARK GAP ADJUSTMENT

The H.F. printed circuit board, part no. SAF 0408-3814 is used in Nertazip models 215, 525 and 540.

The board incorporates a spark gap assembly. If it becomes necessary to check and adjust the gaps, these should be set at 0.4m (0.016").
