BULLETIN #158

WELDMATIC 150S**REPLACEMENT WIREFEED BOARD CP104-12**

This is to advise an upgrade to the wirefeeder circuit of the Weldmatic 150S. The CP104-11 wirefeeder control board has now been redesigned to provide improved arc starting.

WIA part number for the new wirefeeder PCB is CP104-12.

The new PCB will be implemented in production shortly, and will also be available as a CP104-12N (new) and later, a CP104-12R (repaired).

The CP104-11 N and R will be progressively phased out.
