CONSTRUCTOR MODELS

MILLER EQUIVALENTS FOR THE CONSTRUCTOR SERIES

As recently as 1995, WIA sold a number of Miller machines in yellow colour as "Constructor" models. These machines used exactly the same components, and had the same specifications as their Miller counterparts. The following table gives the equivalent Miller model name and stock number for the complete range of Constructor models. Using the equivalent Miller model name will help to locate circuit diagrams and spare parts information on the Miller Service Assistant CDROM.
